Brain Teasers

I left my campsite and hiked south for 3 miles. Then I turned east and hiked for 3 miles. I then turned north and hiked for 3 miles, at which time I came upon a bear inside my tent eating my food! What color was the bear?

A man calls his dog from the opposite side of the river. The dog crosses the river without getting wet, and without using a bridge or boat. How?

We're giving away \$25 SMW Gift Cards to customers that schedule a tour of our facilities!

*Answer 1: White. The only place you can hike 3 miles south, then east for 3 miles, then north for 3 miles and end up back at your starting point is the North Pole. Polar bears are the only bears that live at the North Pole, and they are white.
Answer 2: The river was frozen.*

Just for Laughs...

An aged farmer and his wife were leaning against the edge of their pig-pen when the old woman wistfully recalled that the next week would mark their golden wedding anniversary.

"Let's have a party, Homer," she suggested. "Let's kill a pig." The farmer scratched his grizzled head. "Gee, Ethel," he finally answered, "I don't see why the pig should take the blame for something that happened fifty years ago."

In the winter a man says to his wife:

"Should we get the pig inside, it is freezing out there."

"But it stinks", says the wife to which the husband replies:

"He will get used to it!"
