# Pierce

Over 160 Pierce Pivots Sold!

## Food for Thought

Happiness is like jam, you can't spread even a little without getting some on yourself.

The farmer is the only person in our economy who buys everything at retail, sells everything at wholesale and pays the freight both ways.

-John F. Kennedy

If I waited until I had all my ducks in a row I'd never get across the street. Sometimes you just have to gather up what you've got and make a run for it.

## Inspirational Corner

I still believe in amber waves of grain;  
Man on his knees praying for rain.  
That grew this country strong;  
and keep us moving on.  
They get tougher as their lives keep getting harder,  
Oh, I think its time we all thank a farmer.

What if you woke up today with only the things you thanked God for yesterday?

# Things You Might Not Know

1. Wilmer Steele of Sussex County, Delaware is often cited as the pioneer of the commercial broiler industry. In 1923 she raised a flock of 500 chicks intended to be sold for meat. Her little business was so profitable that, by 1926, Mrs. Steele was able to build a broiler house with a capacity of 10,000 birds.
2. A group of pigs is called a "sounder".
3. Pigs are considered the 4th most intelligent animal after chimpanzees, dolphins, and elephants.
4. Some breeds of chickens can lay colored eggs, the Ameraucanas and the Araucanas can lay eggs of green or blue color.
5. You can tell whether an egg is fresh or stale by dropping it in water. A fresh egg will sink and a stale egg will float.

*We're giving away \$25 SMW Gift Cards to customers that schedule a tour of our facilities!*

## Let's Talk Maintenance

### Electric VHS Pump Motors

30HP and smaller - Grease top and bottom bearings every 300 hours.

40HP and larger - Check top bearing lubricating oil daily and change oil every 3 years or if oil becomes discolored due to moisture. **Grease bottom bearing every 500 hours.**

### Right Angle Gear Drives

Check lubricating oil daily and change oil every 3 years or if oil becomes discolored due to moisture.

### For Both VHS and Right Angle Gear Drives

Keep packing gland adjusted to 1-3 drops per second and make sure there is a rubber water slinger on the shaft between the packing gland and the bottom of the Right Angle Gear Drive or VHS motor to prevent water from following the shaft and entering the VHS motor or the Right Angle Gear Drive.

### Recommended Oil for VHS Motors and Right Angle Gear Drives

VHS Motors - Texaco Regal 68 or equivalent

Right Angle Gear Drives - Texaco Regal R&O 150 or equivalent

## Customer Good News Corner

I would like to take this opportunity to ask all of our great customers receiving this letter to send me some of your good news such as new babies, weddings, new pets, or anything that is just plain good news. I believe all of us will certainly enjoy hearing good news from our farming community for a change.

Call (302) 875-7958, Mail SMW Sales, 11432 Trussum Pond Road, Laurel, DE 19956 or Email me at [rcarmine@smwsales.net](mailto:rcarmine@smwsales.net).

Hopefully, I will receive enough good news to fill up the whole back page of the next SMW Customer Newsletter.

Thank You  
Richard
