

Dear Neighbor,

We wanted to show you one of the many fine products we manufacture at SMW Sales LLC, in Laurel, DE.

The spreader we designed & produce will spread several types of materials from manure to lime. You have the option of taking your load straight to the field & spreading it or disengaging the rear spinners & stockpiling the material. The spreader was designed to withstand the wear and tear of our rental fleet. The extra heavy-duty construction will give you years of trouble-free operation & is backed with a 6-month limited warranty.

Also included is additional information and details on the spreader with this flyer. If you would like to see the spreader, we have one on display in our yard, or give our sale representative a call to arrange a demonstration at your farm. We offer several financing programs. From rent to own lease programs to arranging full financing for your equipment program.

Be sure to give us a call today for additional details, and as always, we would be happy to answer any questions you may have!

Heavy Duty Spreaders for Farm, & Commercial Use

A pull-type spreader designed for uniform application. Materials can be spread on a field or the spinners can be disengaged to stockpile the material. The spreader is PTO powered by either 540 RPM or 1,000 RPM drives. A heavy-duty adjustable tongue jack & fold away PTO holder are also standard equipment. Material is spread by two 28" diameter tempered steel spinner plates with 6 adjustable/replaceable paddles. Power is supplied to the main gearbox and spinners by a proven and dependable one piece triple B-belt drive system which uses extra heavy-duty 1-1/4" shafting with #20 series universal joints.

Dual Walking Beam axles with 21.5 x 16.1 high flotation 10-ply implement tires are standard. Undercarriage frame is manufactured using 2"x6" box tubing. Tongue assembly made from 8" channel iron. Standard on all models are walking beam axles which are extra heavy-duty.

SPECIFICATIONS

Body Length	16'	18'	20'	22'
Width	100"	100"	100"	100"
Height	87"	87"	87"	87"
Cu. Ft.	413	468	523	578
Net Weight	5140	5350	5560	5770
Spinner Dia.	28"	28"	28"	28"
Conveyor	34"	34"	34"	34"

COLOR OPTIONS

The material spreader can be ordered in green/ yellow or red/white

BODY

All electric welded 12 gauge body sided and end sheets. Sides of the spreader are on a 46 degree angle to prevent wet material build up or the bridging of other material. Subframe 3/16" supported by heavy 3" channel cross members.

CONVEYOR

Conveyor floor is 1/2" UHMW sheet material supported every 12" by 2x2 angle iron with recessed stainless bolts and nuts. Conveyor chain is a combination wet lime & manure chain with 6-3/4" bar spacing. Rear shaft is 2" diameter supported by individual heavy-duty bearings on each end. Front shaft is 1-1/2" diameter with special cutter-type sprocket to prevent material build-up with spring loaded chain tighteners. A 50:1 ratio main conveyor gearbox coupled by an extra heavy-duty chain coupler is standard equipment.
